## Concerning Shade Trees.

At the meeting of the Board of Trade  
on Thursday evening the following  
timely report on the subject of shade  
trees was submitted by the Committee  
on Suburban Homes:

BLOOMFIELD, March 10, 1904.

To the Officers and Members of the

Bloomfield Board of Trade:

GENTLEMEN—Last spring in our cir-  
cular addressed to the residents of Bloom-  
field we called attention to the destruc-  
tibility of shade trees along our streets  
and avenues as follows:

"Trees should be planted at regular  
distances apart along the curb lines of  
the street. The town, upon application  
to the proper official, will set out and  
pay one-half the cost of a suitable num-  
ber."

We are now approaching the season in  
which this suggestion can be carried out,  
and your committee wish to em-  
phasize its importance and make another  
appeal through you to our citizens gen-  
erally to aid in beautifying our town.  
Nothing can add so much to the comfort  
of our people and to the healthfulness  
of the community with so little expendi-  
ture on the part of the property-owners.

The Newark Board of Trade, through  
its committee, issued last November a  
stirring appeal to the citizens of Newark  
to give earnest attention to this matter,  
in which an extract is given from a  
pamphlet issued by the Forest, Fish and  
Game Commission of the State of New  
York regarding the kinds of trees most  
suitable for street planting, dividing  
them as follows:

"Wide streets—American or white  
elm, hard or sugar maple, tulip tree,  
basewood (linden), horse chestnut, sweet  
gum, sycamore (buttonball), white ash,  
scarlet oak, red oak, white oak, honey  
locust, American chestnut.

"Narrow streets—Norway maple,  
white or silver maple, red maple, alian-  
thus, cucumber tree, ginkgo, bay willow,  
pin oak, red flowering horse chestnut,  
black or yellow locust, hackberry, hardy  
catalpa (speciosa), lombardy poplar.

"These trees are stated in the order of  
their desirability."

After planting care should be taken of  
the trees; they should be protected with  
wire netting placed around the trunk to  
the height of about eight feet and fast-  
ened so it cannot chafe the bark.

We give herewith the town ordinance  
covering this subject, and have been  
assured that the Town Council stands  
ready to carry it into effect upon appli-  
cation. We utilize the provision regard-  
ing the payment of the half-cost when  
application is made. This need not  
prevent or confuse any one; it simply  
signifies that the applicant must pay his  
or her share before the town will do the  
work. This can only be done when one  
is advised by the town official as to the  
amount. Do not hesitate or delay. Ad-  
dress your application to the Town Coun-  
cil or to the town of Bloomfield, stating  
the location, the number of trees and  
your preference as to variety, naming  
several, as it may not be convenient or  
possible to obtain your first choice.  
Bear in mind the experience of some of  
our citizens with regard to stone side-  
walks, as the "first come first served"  
rule must necessarily be observed.

## AN ORDINANCE RELATING TO ORNAMENTAL OR SHADE TREES.

Be it ordained by the Town Council of  
the Town of Bloomfield, in the County  
of Essex, as follows:

Section 1. That the Town Council  
provide ornamental or shade trees for  
the public streets in the town of Bloom-  
field, on the written application of the  
owner of the soil along the line of the  
street where it is desired to place or set  
out such trees; provided that application  
be accompanied with a sum of money  
equal to one-half the cost for providing,  
planting or setting out the trees applied  
for.

Section 2. All ornamental or shade  
trees hereafter placed or set out in any  
street in the town of Bloomfield shall be  
placed or set out between the inner and  
outer line of the sidewalk of such street  
wherever and at such distances apart as  
the Town Council or its agents shall  
direct; and any person placing or set-  
ting out such trees without such notice  
to be placed any tree contrary to the  
provisions of this section shall pay a  
fine of ten (10) dollars for each and every  
offense, and the further sum of ten (10)  
dollars for every week such tree shall be  
permitted to remain after such notice  
shall have been given by the Town Coun-  
cil to remove the same.

Section 3. No person, except the  
owner, shall cut down, destroy, break or  
in any manner injure any tree standing  
in any public street or highway, unless  
by direction of the Town Council. Any  
person violating the provisions of this  
section shall pay a fine of twenty-five  
(25) dollars.

Ordinance passed August 6, 1900.  
Respectfully submitted by the Subur-  
ban Homes Committee.

FREDERIC M. DAVIS,  
GODLOVE C. SHERBET,  
ARTHUR RUSSELL,  
HARRY R. SHELTON,  
WILLIAM BIGGART  
(Chairman).

## Borough Election.

The annual spring election took place  
in Glen Ridge Borough Tuesday. There  
was only one ticket in the field and the  
vote was a small one, only forty-eight  
votes being cast. Following is the re-  
sult: Councilmen for three years, A. H.

Tyson and Walter Wallace; Collector of  
Taxes, Frank S. Benson; Assessor,  
Hampton L. Johnston; Commissioner  
of Appeals, E. A. Moss. The appropri-  
ations as recommended by the Council  
were carried.

Nowhere can you be sure of cut glass  
as finished as at G. Dorfinger & Sons, 3 and  
5 West 19th Street, near Fifth Avenue,

## Challenge from W. W. Keyler.

Offer to Refund Money if Dr. How-  
ard's Specific Will Not Cure Any  
Case of Constipation or Dyspepsia.

W. W. Keyler is seeking the way at  
case of dyspepsia or constipation in  
Bloomfield or vicinity to test Dr. How-  
ard's new Specific for the cure of these  
diseases.

So confident is he that this remark-  
able medicine will effect a cure, quickly  
and lasting, that he offers to refund the  
money should it not be successful.

In order to secure the quickest pos-  
sible introduction W. W. Keyler will sell  
a regular fifty cent package of this  
medicine at half price, 25 cents.

This specific of Dr. Howard's will  
cure sick headache, dizzy feelings, con-  
stipation, dyspepsia, and all forms of  
malaise and liver trouble. It does not  
simply give relief for a time; it makes  
permanent and complete cures.

It will regulate the bowels, tone up  
the whole intestinal tract, give you an  
appetite, make food taste good and  
digest well, and increase vigor. Joy  
and happiness will take the place of  
that "don't care whether I live or die"  
feeling.

Take advantage of W. W. Keyler's  
challenge and secure a bottle of Dr.  
Howard's Specific at half price with this  
personal guarantee to refund your  
money if it does not help you.

There is no need of suffering with  
constipation, dyspepsia or liver disease  
when you can get fifty doses of a  
scientific medicine for their cure like  
Dr. Howard's Specific for the small sum  
of 25 cents.—Advt.

## Text Book of American History.

William E. Chancellor, Superintendent  
of Schools in this town, is the author of  
"A Textbook of American History,"  
which has recently come from the press.  
Anticipating a possible criticism that  
there are already enough textbooks  
covering the same ground, Mr. Chan-  
cellor says in his preface: "From the  
point of view of the American citizen in  
the first decade of the twentieth  
century, our history as a nation pre-  
sents a wider range than in any early  
epoch. In this wider range of our  
interests there is a distinctively new  
feature; we now meet upon our hori-  
zons in business and in politics, the  
other nations of the world as the great-  
est of them all. We are the first  
democratic empire in universal history.  
From this new point of view the events  
of American history take on new  
meanings. Changes in relations and  
proportions necessitate the rewrit-  
ing of history. \* \* \* I have meant to  
develop and to preserve in the students  
the historical perspective, the faith in  
the progress of Americanism to the  
ultimate realization of the finest prin-  
ciples of our human nature, and to  
awake in them the desire for the truth  
that makes men free."

In arrangement the book differs con-  
siderably from the usual plan of school  
histories. It is divided into six parts,  
the first two of which deal respectively  
with "Discovery and Settlement" and  
"Progress of the Colonies," while the  
third is entitled "Building the Nation,"  
and the fourth "Political Progress of  
the Nation." Thus the narrative is  
brought down to the present year, with  
only the briefest mention, however, of  
the wars after the Revolution. That  
was fully discussed in Part III, as a  
vital portion of the story of the building  
of the nation. All later wars, however,  
are discussed at length in Part V, "Our  
Nation's Wars," the four chapters of  
which are entitled "Our First Wars,  
1799-1815," "The Mexican War," "The  
War of Secession," and "The Spanish  
War." Part VI, "Progress of Ameri-  
can Civilization," contains chapters on  
"Science and Industry," "Culture,"  
"Self-government" and "American and  
European History." Mr. Chancellor  
brings to his task ripe scholarship and  
a mind trained in modern methods of  
historical study. He passes lightly over  
a mass of details to lay emphasis on the  
more important parts of the story. His  
arrangement, too, gives him opportunity  
to develop certain phases of the subject  
more fully than would be possible in  
any other way. Whatever defects such  
arrangement may have are perhaps offset  
by the advantage gained. Not the  
least valuable feature of the book con-  
sists in its appendices, in which is  
given much valuable information about  
the admission of States, the Presidents  
and their parties, European rulers in  
American history, and immigration  
statistics, together with extensive  
bibliographical notes and the text of  
the Declaration of Independence and the  
Constitution of the United States.  
Another excellent feature is the list of  
questions appended to each chapter,  
together with suggested additional read-  
ings, topics for individual investigation,  
and a resume of the essential dates.  
Such mechanical devices, says Mr.  
Chancellor, "show a child what the  
author of the book regards as the  
principal things to be learned from the  
pages." He also provides some im-  
portant suggestions for teachers. The  
book is profusely illustrated, the maps  
in particular being selected and pre-  
pared with great care.

## Valleburgh Bill Passed.

The Valleburgh annexation bill passed  
the House on Wednesday and now  
awaits the signature of the Governor.  
The bill was originally introduced by  
Assemblyman Duffield and provided for  
a vote of both the people of Newark  
and of Valleburgh on the question of  
annexation. Senator Boehlert's sub-  
stitute bill requires only the people of  
Valleburgh to vote on the question at a  
special election.
